No More Dust.

VETERAN DUST EXTERMINATOR SWEEPING COMPOUND

is the successful result of years of diligent study and careful experiment. It is not a liquid, but is manufactured in granulated form. An every day necessity, not a luxury. It absorbs dirt and prevents dust from rising during the process of sweeping. It makes bare floors clean and smooth, saves scrubbing, kills the dust and germs, brightens up old carpets and rugs, obviates disastrous consequences of an inevitable cloud of dust while sweeping the old way.

Used on Floors, Tiles, Linoleums, Oil Cloths, Carpets and Rugs, and possesses properties that firmly grip the dust and dry-cleans them.

Practically Indispensable for Dwellings, Offices, Stores, Warehouses, Public Buildings, Schools, Colleges, Hospitals, Churches, Theatres, Halls, Restaurants, Hotels, Factories or whatever microbe-infected dust accumulates on floor or space.

It is inexpensive; pays for itself by saving hundreds of dollars in damaged goods each year, and it is guaranteed to the work of exterminating dust.

Dust Breeds Consumption
Dust is extremely disagreeable as well as dangerous, everybody admits that and arguments to the contrary are destructive, hence the necessity of using a Sweeping Compound of Established reputation and dependable quality, being guaranteed acceptable and a Disinfectant.

Carpets, Rugs and Art Squares

Why take up carpets and beat them with pieces when the Veteran Dust Exterminator Sweeping Compound will gradually clean them where they are and bring back their original colors on the floor without taking them up?
This Sweeping Compound does not fly the dust, but removes it from the floor by absorption. No dust rises and sweeping becomes an unalloyed pleasure instead of a dirty drudgery.

MOUSE IN A "RAT."
A mouse in a lady's "rat" cost one of the wealthy citizens of Tipton, Ind., a new set of china Wednesday, when it appeared suddenly on the breakfast table, after jumping out of the daughter's hair. Her father had put out poison for mice. A mouse ate some of it and crawled into the "rat." He did not eat quite enough to kill him, but he was analyzed for the time. Wednesday morning when the young woman was awakened by the arrival of one of her girl friends she dressed hurriedly and did not examine the "rat" closely before putting it on.
While the family were at breakfast the mouse recovered from the effects of the poison and jumped from the "rat" to the table. The table was overturned in the excitement and every dish was broken.

D. A. R. IN NEW HOME.

Handsome offices in Continental Memorial Hall, in Washington, were occupied Thursday by the Daughters of the American Revolution, the old quarters in the Washington Loan and Trust Company building being vacated after fourteen years' occupancy. Mrs. Matthew T. Scott, president general of the society, personally supervised the work of removal. The new building, erected by the D. A. R., at a cost of \$600,000, is now practically complete. The offices of the headquarters of the society will be located in a suite, and all business will be transacted there. The headquarters of the American Monthly Magazine, the official organ of the D. A. R., will also be located in Continental Memorial Hall.

This remedy acts directly on the inflamed, sensitive membranes. Cleansing, soothing and healing. One trial will convince you of its healing power. Price 50c.
